To Whom It May Concern:

The Clay County Board of County Commissioners has worked closely with Mercy Support Services to assist with wrap-around services to Clay County residents in need. One of those services is to coordinate efforts to obtain grant monies to further the community and social service goals of the County.

Mercy Support Services is seeking legislative appropriations that would be used to establish the Mercy Village in Clay County, Florida. The funding would expand this self-sufficiency program by providing additional temporary supportive housing, life coaching, and services for families and unaccompanied 18-year-old high school students. The program can transform lives and provide a path to end generational poverty within the County.

The Clay County Board of County Commissioners supports Mercy Support Services efforts to gain legislative appropriations for funding the Mercy Village and is committed to supporting the implementation of this project to further the community and social service initiatives within Clay County.

Sincerely,

Betsy Condon, Chair
Clay County Board of Commissioners
