Public Records Policy

It is the policy of the Clay County Board of County Commissioners (Board) that all County records shall be open for personal inspection by any person, unless those records are specifically exempted by law from production or disclosure under the terms of Chapter 119, Florida Statutes.

The Board declares that the public records generated and maintained in the course of the Board's conduct and stewardship of the business of Clay County are first and foremost a resource for the citizens of Clay County and the public as a whole and are not to be considered a revenue source for the County.

With regard to those documents which may be produced and are not exempt from disclosure or confidential, the Board makes the following policies:

- The Board shall not charge copying or supervisory fees for any request for examination or copies of public records within its control made by the United States of America, the State of Florida or any other local government in the State of Florida.
- The Board, in responding to a request by a citizen of Clay County or the public at large for copies of public records within its control shall charge the above fees in accord with Chapter 119, Florida Statutes.
- The Board shall not charge a fee for supervising the production and examination of public records, nor shall there be a fee for the time associated with gathering documents responsive to a particular request if such time does not exceed a total of one-half hour. Any request that exceeds the one-half hour threshold shall be charged at a rate reflective of the labor cost of the lowest pay grade for personnel who are capable of adequately responding to the request and which is actually incurred by the County for the clerical and supervisory assistance required.
- Prior to making copies of the requested public records, the Board will notify the person requesting the records of the cost involved (including supervisory and labor cost, if applicable). Payment is due before any copies of the requested public records will be made. Payment will be in the form of cash, personal check on a local bank, money order, or certified check made payable to the "Board of County Commissioners of Clay County, Florida."
- The Board designates the Office of the County Manager to be responsible for furnishing copies of public records in response to requests received. The Office of the County Manager shall comply with all requests in a reasonable amount of time.

For the purpose of this policy, access to public records is allowed during normal working hours; Monday to Friday, 8:00 a.m. to 4:30 p.m. The County will make every effort to respond fully to all public records requests within a reasonable time.

ANIMAL SERVICES

GOAL: The mission at Clay County Animal Services is to safeguard public health and safety from dangerous and sick animals; to protect the community's animals from cruelty and neglect; to humanely house, care for, and provide placement for homeless pets; and to find humane resolutions for the animals in its care. In addition, it strives to reduce pet overpopulation by working closely with local nonprofit and community organizations, and to educate the community on responsible pet ownership.

If an animal, whose owner and keeper has paid the five hundred dollars (\$500.00) fee for not agreeing to spay or neuter their animal, is impounded a second or more time for being allowed to be at large and is not at that time sterilized, then the owner and keeper, in addition to the costs of sterilization will have to pay five hundred dollars (\$500.00) fine to the County in order to reclaim the animal.

If an animal, whose owner and keeper has agreed to have it sterilized under these provisions, is impounded a second time for being allowed to be at large and is not at that time sterilized, then the owner and keeper, in addition to the costs of sterilization will have to pay five hundred dollars (\$500.00) fine to the County in order to reclaim the animal.

BUILDING

GOAL: The Clay County Building Division's mission is to serve customers with professionalism and efficiency through licensing, permitting and inspections to ensure the health, safety and welfare of the community. Licensing protects citizens and contractors. Permitting protects citizens against unlicensed contractors and prevents misplacement of structures on properties. Inspections are performed in stages to ensure compliance with the Florida Building Code. All deficiencies are noted and re-inspected to ensure work is done to meet the code before a certificate of occupancy is issued. The Building Division is proud of providing fast and efficient service to customers throughout the community.
